About InnovAge
InnovAge is a market leader in managing the care of high-cost, dual-eligible seniors. Our mission is to enable seniors to age independently in their own homes for as long as possible. Our patient-centered care model meaningfully improves the quality of care our participants receive, while reducing over-utilization of high-cost care settings. InnovAge is at the forefront of value based senior healthcare and directly contracts with government payors, such as Medicare and Medicaid, to manage the totality of a participant’s medical care. InnovAge believes its healthcare model is one in which all constituencies — participants, their families, providers and government payors — “win.” As of December 31, 2021, InnovAge served approximately 7,050 participants across 18 centers in five states. https://www.innovage.com/.
