About InnovAge

InnovAge is a market leader in managing the care of high-cost, frail, predominantly dual-eligible seniors through the Program of All-inclusive Care for the Elderly (PACE). With a mission of enabling older adults to age independently in their own homes for as long as safely possible, InnovAge's patient-centered care model is designed to improve the quality of care our participants receive while reducing over-utilization of high-cost care settings. InnovAge believes its PACE healthcare model is one in which all constituencies — participants, their families, providers and government payors — "win." As of December 31, 2024, InnovAge served approximately 7,480 participants across 20 centers in six states. <https://www.innovage.com>.
