About InnovAge
InnovAge is a market leader in managing the care of high-cost, frail, and predominantly dual-eligible seniors through the Program of All-inclusive Care for the Elderly (PACE). With a mission of enabling older adults to age independently in their own homes for as long as safely possible, InnovAge’s patient-centered care model is designed to improve the quality of care our participants receive while reducing over-utilization of high-cost care settings. InnovAge believes its PACE healthcare model is one in which all constituencies — participants, their families, providers and government payors — “win.” As of September 30, 2025, InnovAge served approximately 7,890 participants across 20 centers in six states. https://www.innovage.com.
